

Silverton Flywheels

May 2007

STUFF:

The weather is finally starting to cooperate with us car guys and the rigs are showing up on the streets and looking pretty good!! Heard that there was over 500 cars at this Saturdays cruise in up north (Thanks DW) Some of us met down at the Super Service Station a couple of Saturdays ago. Nice way to start off spring. Have not heard much from others about their car projects, etc. I myself have been way too busy lately to track any one down for info. Gonna have to get back on the group for info, etc. to make for a more informational newsletter.

Okay, some of you have heard about Glenn Greens recent Brain Surgery, but for those that didn't here is the short story. Glenn went into the Dr. for a scratchy throat and they found a large tumor in his frontal area of the skull. This prompted a rather quick trip into surgery for about a 12 hour slice and dice job. But the good news is he is recovering faster than the Dr. thought possible and I talked with both Glenn and Claudia on Sunday and Monday and he sounds about as normal as Glenn can. More updates as they come, mainly at the next Meeting.

Meeting Notes:

Usual health and welfare stuff (see below) Bill MaClaskey recovering from a knee replacement operation. Gary & Bobby Beebe both recovering from surgery. Flyer report from Larry: High School Car Show at Brooks on May 20th and then Silverton High School Car Show on May 25th. Wes will have info on both at the meeting.

By-Laws and Constitution will be mailed / sent by e-mail to all members so everyone can review and we will vote on them at the May meeting. The changes are in Italics and the parts to remove are underlined. Also there are 2 proposals in Article 3 Section 1.

Sounds like the Gardens want to do a car show on September 9th. Not much more info on this at this time more to come, hopefully.

The couch racers (DW and Ronnie) are starting to come together and it sounds like we might have a team or two. WOW, you guys rock or should I say push!!!

We will start the First Fridays in June, actually June 1st. Wes is gonna check with Rick at the Police Department on permits to block of streets for parking, etc. And also the Fridays at DQ will also start in June. Keenan brought the idea of inviting other clubs, but the discussion centered around not enough room for visitors, etc. But you never know, Wes said he would check into more than one block worth of parking area.

Had our first Saturday get together at the Super Service Station in April, donuts, coffee and a whole bunch of BS. Too bad the real BS's weren't there. You know who you are!!!

Wes's Corner:::

Okay Wes is having a little computer problem so I am typing his words for this here newsletter. Officers meeting at the Countryman May 14th. Meeting Thursday the 17th. Boy, that was easy.

Run Stuff:

Upcoming events include the High School car show at Brooks on May 20 and the Silverton Hi School car show on May 25. We encourage Flywheels to participate in the Silverton show, be there by 8 a.m. Awards will be at 3 p.m. Other upcoming events include the Hillsboro 25th All Ford car show and swap meet on June 2, the Rickreall swap meet on June 3, Joseph on June 8 & 9.

GOOD of the ORDER:

Report on Ray Stampley: I'm Steve, Ray's oldest son. I've been asked to handle my fathers email account and I wanted to let you know that Ray is currently in the hospital recovering from brain surgery to remove a tumor. His cancer is complicating his recovery and we don't have a "for sure" prognosis, but are being hopeful and taking each day as a blessing. If you need any further information, please reply back, leave a message for my Mom, or please feel free to contact me at 408-390-5999. Thank you, Steve

UPDATE from Al & Judy Dozler, Ray was placed in a Hospice House as the hospital could not do anything more. Please keep them in your prayers.

See you all at the Countryman this next Thursday the 17th !! I will try to get there early with the New Line of Spring Clothing!!
